

On June 14<sup>th</sup>, 2023, CODEplus attended “Doing Business with NASA MSFC” event, hosted by The Catalyst Center for Business & Entrepreneurship in Huntsville, Alabama, with NASA MSFC Small Business Office.

This event holds great significance for CODEplus because of the mentor-protégé agreement we signed with NASA prime contractor Jacobs Space Exploration Group of Huntsville, Alabama on March 22<sup>nd</sup>, 2023, effectively launching CODEplus on a very exciting journey together with Jacobs to provide mission-critical services to NASA and to support the NASA ARTEMIS program.

Our president and CEO, Jinan Aboushakra, with NASA Small Business Office and Jacobs Small Business Liaison, presented the requirements and the process as it relates to doing business with NASA MSFC.
